Agenda Item 2:	Presenter:
Communicate and find solutions to the difficulties encountered in Iteration 2.	Eric Ningyi Ruan

Discussion:

We found some problems in the project:for example,we were not familiar with git language,unstable network environment caused github could not log in normally,and it took too long to make needed source of Markdown language.

Conclusions:

Put forward different solutions for different problems: continue to learn Git language, and ask questions and feedback in wechat group when everyone has problems; Refresh repeatedly to get on github; Try to learn Markdown and see if previous templates can be adapted.

Action items	Person responsible	Deadline
Each person put forward his or her main dilemma based on the potential problems mentioned by others, and other team members helped to find solutions.	Work on iteration 2 will be effectively advanced.	2023.5.25
